VIGNETTE VIBES

SAPPHIRE CHIC

Few color duos evoke South Florida's laid-back elegance more eloquently than blue and white. Jackie Armour of **JMA Interior Design** captures blue-hued brilliance in this charming vestibule between her client's primary bedroom and bath. "The couple wanted a tropical modern aesthetic that feels fresh, welcoming, and connected to its coastal surroundings," says Armour, who layered organic motifs—a leafy chandelier, botanical wallpaper, and a textured marble mirror—with a Chinoiserie-style console and a velvet stool. "The goal was to capture the spirit of a seaside escape." Mission accomplished.
